**Voices from the Field: How can we best support a new generation of teachers?**
The first few years of teaching can be a frenzy: navigating and learning new policies and systems and getting to know new students and colleagues while developing your voice and identity as a teacher. Mentoring, Critical Friend Groups, and ongoing professional development are critical components of developing a healthy and sustainable teaching career. Mentoring, support, coaching, and guidance, however, are often left to the local school or district level. In this panel a group of educators will share how they have been supported in navigating the first few years of teaching, offer advice for early-career educators, and offer suggestions for how MATSOL - and other spaces - can better support the needs of the next generation of teachers.
